

## Software Development Staff Augmentation Services

**Knowledge Base (KBase)** also provides contract software developers to augment your software development initiatives or in client projects. With Knowledge Base development centers in Malaysia (HQ) and India offices, we can provide various quality resources to fulfill your application development needs. In any development projects, it is recommended to use a mixture of permanent and contract developments to meet the financial budget.

### KBase Contract Resources

KBase Contract IT Resource (CIR) division is setup to assist our customers in fulfilling their information technology objectives. We offer our customers wide ranging project and technical resources. We are dedicated to providing our customers the right resources when they're needed at competitive rates based on monthly rates:

Type of resources available to be hired:

- Project Managers
- Architects/Designers
- BI/Data Warehouse developers
- Application Software Testers
- Quality Assurance Consultants

Most of the developers/consultants we place are normally professional certified engineers in their respective fields. We have **Microsoft, Java, Oracle certified professionals**. Knowledge Base is able to provide the person meeting your requirements within **1 to 2 weeks**.

### Knowledge Base Guarantee

Our peace of mind plan provides you the assurance that we will replace the consultant should they not meet your expectations or other reasons at no cost. That's the Knowledge Base quality and business policy - to ensure that our customers are serviced professionally.

### 'Right to Hire' Program

Knowledge Base often provides consultants on a right-to-hire basis. Companies make a considerable investment when utilizing consultants and many feel that it is advantageous to hire the individual at the end of the contract. We provide our clients and consultants an opportunity to determine their compatibility. If the company wishes to hire a Knowledge Base staff member prior to the end of the contract, Knowledge Base's 'Right to Hire' Program provides the company that option on conversion fee.
